SCHOOL OF ENGLISH

Established in 1992, Link School of English is a private School located in Swieqi, a quiet residential area ideal for educational purposes and close to St. Julian's. Link School of English is licensed by the Malta Tourism Authority and the Ministry of Education, fully accredited by FELTOM, thus ensuring the maintenance of standards in all aspects of English language stays. Both the main building and the new annexe are open all year round and have brightly lit spacious classrooms and a vast outdoor area with large terraces and garden to provide the right environment for quality English language courses. A self learning centre, free WIFI and an internet cafe are accessible to all students in both buildings. Students are assigned to classrooms according to their age, level and nationality and also receive academic counselling by our Director of Studies throughout their course.

Apart from learning English our young learners, aged between 8 and 12 years old, experience the Maltese way of life through leisure, social, cultural and sport activities.

Apart from offering the security of a family environment through our carefully selected host families, we also offer students the opportunity to experience a multi-cultural student campus.

Through continuous motivation for learning we aim to foster in our young learners the qualities necessary to achieve their full potential in life.

Tuition

Our Kids' General English Courses are an invitation to a world of English, fun and adventure. Apart from teaching English our courses promote the development of interpersonal skills and character formation.

Fully geared with the latest educational resources for kids, we promise an unforgettable experience where every child is treated individually and encouraged to develop personal talents and skills.

Students are assigned to classes according to their level and course booked. We emphasise the importance of communication through drama and role play which are included in after school activities to further enhance their learning process. One of the methodologies used is Total Physical Response, (TPR), where students learn English through movement.
